SERVICE BODIES

ALUMINUM SERVICE BODIES

Aluminum service bodies from Knapheide feature a superior design and innovative construction.

Utilizing military-grade aluminum and structural adhesives are just a few of the features that place our aluminum service bodies far ahead of the competition.

In order to provide customers with the utmost confidence in our aluminum service bodies, we put them through the most rigorous testing program in history. They were subjected to the harshest environments and applications possible in our lab, on proving grounds — and by real customers like you.

Choose a Knapheide Aluminum Service Body and you'll get corrosion resistance, increased payload, and an aluminum service bed that is just as durable as steel.

STANDARD SHELVING

All Knapheide Service Bodies come with the following standard shelving units:

- Two adjustable divider shelves and dividers, in the street and curb side front vertical compartments (1st and 2nd vertical 132" bodies only)
- One adjustable divider shelf and dividers in the street and curb side full height rear vertical compartments
- One adjustable divider shelf and dividers in the curb side horizontal compartment

STANDARD FEATURES

- A** Constructed of 6061 T6 and 5052 aluminum

- H** Adjustable security ring strikers provide a weather-tight seal

- B** Aerospace design and assembly for unmatched durability

- I** Upgraded surface mount lighting system features LED S/T/T and B/U, LED strobe option with (9) selectable patterns, and built-in reflectivity for additional safety

**Additional wire harness required for strobe lights
Lights covered by 3-year limited warranty

- C** All-aluminum 6061 T6 understructure

- J** Automotive-quality rotary latches with easy open handle and interior cover

- D** Floor constructed of rugged 6061 T6 aluminum extrusions and exclusive "Return Flange" floor design

- K** Nitrogen strut door retainers

- E** Inset door frame design with double tray aluminum doors and neoprene seals for weather-tight closing

- L** Includes slam-lock tailgate with one-hand center release

- F** TPO fender skirts

- M** Quick-mount installation allows for fast, safe mounting

- G** Continuous aluminum hinge with stainless steel rods

- N** Interior light guards protect recessed lighting and wiring

COMPARTMENT CONFIGURATIONS

// 500 SERIES COMPARTMENTS

The 500 Series Service Bodies feature a horizontal compartment that stretches from the first vertical compartment to the end of the body with a small, rear lower compartment.

// 600 SERIES COMPARTMENTS

The 600 Series Service Bodies feature a horizontal compartment that is positioned over the wheel well and one vertical compartment in the front of the body and one at the rear of the body.

// 700 SERIES COMPARTMENTS

The 700 Series has 500 Series configuration on the curb side and 600 Series on the street side.

// LOW PROFILE BODY

Low Profile Bodies, denoted by “LP”, offer greater visibility from the cab while only sacrificing 4” of the body height compared to a standard Service Body.

// RAISED FRONT COMPARTMENTS

Raised front vertical compartment configuration raises the curb side front vertical compartment to 60” tall.

// **FLIP TOP** **COMPARTMENTS**

Flip Tops, denoted by “F”, allow for greater internal storage, organization and flexibility. Knapheide’s Flip Tops have a slammable top lid door and a convenient one-hand release located in the horizontal compartment.

// **PLUS 50** **COMPARTMENTS**

Plus 50 models feature a transverse compartment in the curb side front vertical extending to the street side compartment in the back. Plus 50 models have 50% more effective storage capacity.

Depending on body model, compartments have either two or three drawers, 59” or 69” long. All drawers are rated for 250-lb. and have dividers every 4”.

POPULAR OPTIONS

// BUMPERS

Knapheide bumpers are constructed with work in mind. With three configurations and three surface options (tread plate, Galva-Grip, and grip strut), we have a bumper for every need. Select bumpers available with Knap-liner coating for additional friction and durability.

Bumpers for aluminum bodies are available in Knap-liner coating only.

STRAIGHT BUMPERS

STEP BUMPERS

HITCH RECESS BUMPERS

// CANOPY ROOF

The canopy roof option allows you to fully enclose your cargo area. Canopy roofs are available in three heights, straight sides, and with stationary or telescopic roofs. For a tapered-side one-piece body design, take a look at our KUVcc product line.

Not available for aluminum bodies.

STRAIGHT SIDES

TELESCOPIC ROOF

SIDE LADDER RACKS

SIDE ACCESS DOORS

REAR ACCESS DOOR

// TELESCOPIC SLIDING ROOF

Telescopic sliding roofs offer a robust enclosure for the cargo space of your Service Body, allowing you to protect your tools and equipment from theft and weather.

Not available for aluminum bodies.

// CRANE REINFORCEMENT KIT

The crane reinforcement kit option allows you to incorporate a crane up to 4,000 lb. capacity (16,000 ft-lb. max.) onto the rear curb side corner of your body.

Not available for aluminum bodies.

// RACKS

Adding a rack to your Service Body increases your storage space by getting your ladders and other long tools or equipment up and out of the way, making room to haul more items in your cargo area.

// SERVICE BODY PACKAGES

Need your work truck fast? These preconfigured packages are built for quicker delivery to you. Ask your Knapheide rep for more information.

1848 PACKAGE

- Painted white
- Lights installed and wired
- Power locks installed
- LED compartment lights installed
- Sortimo BOXX package in left horizontal compartment
- Aluminum tread plate rock guards and tailgate trim installed

PIONEER PACKAGE

- Painted white
- Lights installed and wired
- Masterlocks installed
- Aluminum tread plate rock guards installed
- Aluminum tread plate trim kit installed: includes tops of compartments and tailgate

**Not available for aluminum bodies*

COMMITMENT TO CORROSION RESISTANCE

Corrosion won't be a concern when you buy quality Knapheide products.

To give you the best corrosion protection on our steel bodies, we utilize a state-of-the-art, custom-designed, 12-step, SST cathodic electrodeposition finishing system, called "E-Coat."

It bonds prime paint to steel by an electroplating process to give you a superior coat of primer, resulting in better corrosion protection compared to spraying methods.

Aluminum bodies are naturally corrosion resistant. Where steel fasteners are used, those fasteners are coated with "EcoGuard" to eliminate the interaction between the steel and aluminum.

The E-coat system and aluminum assembly method both allow us to create products with the highest level of corrosion resistance available.

NEVER SETTLE

If you are going to be a leader, it takes more than building a high-quality product. It means never being totally satisfied with that product, no matter how high quality it may be. It requires constant vigilance and a willingness to take a chance on something new. And it means exceeding expectations every time. As the industry changes, one thing never will—our commitment to making customers like you as productive and efficient as possible. We know you don't settle, and we don't either. That's why we want you never to settle for anything less than Knapheide on the back of your truck.

Knapheide. Never settle.
