

ON THE TRUCK | **IN** THE TRUCK | **FIX** THE TRUCK

THE MINIMIZER™ ADVANTAGE: 2017 CATALOG

Dear Friends of Minimizer,

Thank you for your interest in Minimizer Products. You may notice something new about this year's catalog. We've segmented our products into three categories: On the Truck, In the Truck, Fix the Truck. The reason is pretty simple – we have several new products and we want you to be able to find them quickly!

Our product lines are expanding every year, and for the sake of everyone involved, it seemed to make the most sense to divide the products into groups - those that go "On the Truck", such as our Fenders, Brackets and Slick Plates; those that go "In the Truck", like the new Minimizer Truck Seat System or our Custom Molded Floor Mats; and those that help you "Fix the Truck", like our Work Benches and Tire Mask system.

We hope that this makes it easier to find one of our Tested and Tortured products in our ever-growing catalog.

Thanks for your business.
Enjoy the catalog!

Craig Kruckeberg
CEO & Chief Visionary
craig@minimizer.com

About Minimizer

Headquartered in Blooming Prairie, Minnesota, USA, Minimizer manufactures the lightest, most durable, longest lasting truck fenders, toolboxes, custom floor mats, custom mud flaps, industry-leading bracket kits, and truck accessories in the trucking industry. Family owned and operated for over 30 years and three generations, Minimizer uses durable materials and proprietary processes to build long lasting products that are tough enough to please people in a tough industry.

THE LATEST IN INNOVATION:

NEW PRODUCTS

NEW PRODUCTS

Minimizer takes pride in being pioneers of innovation in the heavy duty aftermarket parts world. With more than 30 years of developing and manufacturing some of the most unique products available to the industry; including Poly Fenders, Bracket Kits, Custom Molded Floor Mats, and Tool Boxes; Minimizer never stops its relentless pursuit of providing tough products for tough people in a tough industry!

In the last year, Minimizer has introduced **4 NEW PRODUCTS** with several more on the way!

MINIMIZER™ TOOL CADDIES

See Page 105-106

Minimizer's NEW Standard, Super Single, and Flatbed Tool Caddies put tools right where you want 'em. With 3 unique options, the Tool Caddies are designed to attach directly to either the tire or the flatbed and can hold up to 100lbs of tools and gear.

"The Tool Caddy works really well if your truck breaks down and you're forced to fix it roadside. It's also great in repair shops," Minimizer CEO and Chief Visionary Craig Kruckeberg said.

Minimizer Tool Caddies are made from the same polymers that make our fenders nearly indestructible. Like all the products in the Minimizer Maintenance Line, the Tool Caddies have been thoroughly TESTED & TORTURED and come with a LIFETIME GUARANTEE!

MINIMIZER™ TRAILER SLICK PLATE

See Page 81-82

The Trailer Slick Plate is a self-lubricating polymer plate that attaches to a trailer's upper coupler. The result? Easier maintenance, no need for messy grease, and fewer issues with coupling tractors and trailers.

"The Trailer Slick Plate is an excellent addition to our line," Minimizer CEO and Chief Visionary Craig Kruckeberg said. "Nobody wants to have to grease the upper coupler plate, and with this product, you don't have to."

The Trailer Slick Plate reduces wear and tear on the truck's fifth wheel, as well as the trailer's upper coupler. It also makes for easier trailer handling for drivers and increases steer tire life.

"If you drop-and-hook often, then this is the product for you," Kruckeberg said.

NEW PRODUCTS

NEW PRODUCTS

MINIMIZER™ TRUCK SEAT SYSTEM

See Page 93-96

The Minimizer Long Haul Series consists of six different seats, all of which are equipped with 14 standard features, including several unique to the HD trucking industry.

“The seats spent years in development, partially due to the fact we were very specific with the features. We wanted our seats to stand out from the rest,” Minimizer CEO and Chief Visionary Craig Kruckeberg said.

Included in the 14 standard features are upper and lower lumbar support; a 135-degree swivel base that allows the driver to spin the seat inboard if they want access to the cab; both air height adjustment with memory as well as a physical shock absorber; and numerous adjustments built into the seat to ensure ultimate comfort for each body type, whether a driver is 6’4”, 280 pounds or 5’5”, 110 pounds.

MINIMIZER™ FAST FLAPS

See Page 85-86

Fast Flaps secure mud flaps without creating any holes in the flap or sacrificing strength. It takes more than 500 pounds of pressure to detach a mud flap from the Fast Flaps stainless steel bar, and the result doesn’t damage the flap.

“Fast Flaps eliminate a huge headache,” Minimizer CEO and Chief Visionary Craig Kruckeberg said. “You don’t have to spend any more cash on new flaps or pay expensive fines from driving without a flap.”

A screwdriver pries the Fast Flaps bar apart, allowing you to insert the mud flap into the gap.

“Installing them takes seconds. Truck drivers are busy people, so time saved is money earned.” Kruckeberg said.

Minimizer is your aftermarket solution for quality and dependable truck parts. We use only the highest performing and most durable materials along with robotic production technology to create an industry standard that allows us to offer the longest guarantee in the business. Use Minimizer’s innovative products to make your truck stand out from the rest.

ON THE TRUCK

THE MINIMIZER™ ADVANTAGE:

ON THE TRUCK

ON THE TRUCK

The Minimizer product family continues to grow and diversify. While we are still very proud of award winning fenders and brackets, we manufacture and sell many other products that go **ON THE TRUCK!**

Our industry leading fenders are manufactured using long chain hydrocarbon polyethylene material and thermoformed using proprietary technology. Minimizer fenders completely cover wheels and are designed with a unique lip that provides superior control of spray and debris so your loads and equipment are safer and cleaner. When dented or crushed they bounce back into shape. The material is extremely durable, impervious to salt and corrosion, and can withstand temperatures ranging from -100° F to 197° F.

The award-winning Minimizer never stops innovating. We go head-to-head with shiny metal fenders (that bend and break) with the introduction of the new Minimizer Mirror Finishes. You get the remarkable shine and reflection of a metal fender combined with the durability of The Minimizer Advantage. And now we've launched the new Minimizer Carbon Fiber Poly! This new look adds a unique style to any truck and trailer.

You want tougher products for your rig. You know Minimizer has always made the industry's most durable fenders. Now we're bringing you that same quality and dependability with the Minimizer Light Panels, Slick Plates, Tool Boxes and Mud Flaps. You get the same product performance and guarantees you've come to expect from Minimizer, while protecting and customizing your rig!

SAFETY

In the past, when purchasing a truck, fenders were not a significant consideration. It was a bonus if fenders were included with the truck. But stock fenders didn't perform well and it didn't take long before they were destroyed.

Today, truckers and fleet owners are more conscientious about safety, spray and debris control, and aesthetics. They recognize safety, performance, and proper equipment maintenance have a direct connection with the bottom line. In many jurisdictions, the use of fenders is a legal requirement.

Let's talk about weight. Our moniker boasts we manufacture the lightest truck fenders. What does that mean to you? A lighter fender means better fuel mileage, performance and efficiency. You want to be carrying loads not heavy fenders. Talk about a return on investment.

The right products must be chosen. Nothing beats Minimizer!

SEE IT

You have to see the performance of Minimizer products to believe it. Check out the video section at www.minimizer.com to see the abuse our fenders can take in the new Proving Grounds video and watch the new Anti-Spray video that shows our fenders ability to control debris and road spray!

MINIMIZER ADVANTAGE

STANDARD FENDERS

Minimizer offers a variety of semi-truck fender styles, colors and options. With an outstanding reputation of quality, durability, and style, our fenders will enhance your truck's appearance and lifespan. Minimizer truck fenders never rust because they are a proprietary Minimizer material. The color is molded throughout so chips, scuffs and scratches can't be seen. The fender never needs to be painted and never fades. The Minimizer fender itself should never need maintenance other than the occasional wash using any all-purpose cleaner. Contact us for more information on semi-truck and trailer fenders.

ON THE TRUCK

NEVER NEEDS PAINT: Color is molded throughout, so chips, scuffs and scratches can't be seen.

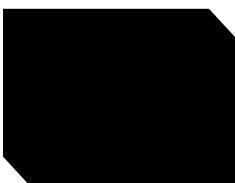

NEVER FADES: UV inhibitors are built into the material.

NEVER RUSTS: Material is 100% polyethylene.

NEVER STRESS CRACKS: The unique material is not affected by road conditions.

NEVER NEEDS POLISHING: Simply clean with soap and water.

CARBON FIBER

ON THE TRUCK

THE LATEST IN **INNOVATION**

The Latest in Innovation from Minimizer, the distinctive look of Carbon Fiber... Combined with the unmatched advantages of Minimizer fenders: **NO PAINTING, NO FADING, NO RUST AND NO CRACKS.** Minimizer Carbon Fiber fenders are the first of our unique Paint Films to hit the market and are now available via the Minimizer Worldwide Distribution Network.

UNIQUE OPTIONS

ON THE TRUCK

CARBON FIBER **DECORATED BRACKETS**

Minimizer offers multiple decorated bracket arm finishes. Each option provides the same high level of performance and durability as our standard black poly bracket arms. Just another innovation in unique aftermarket products.

MIRROR FINISH

ON THE TRUCK

AN INDUSTRY **BREAKTHROUGH**

The NEW and IMPROVED Minimizer Silver Mirror Finish and Smoky Black Mirror Finish poly fenders, with a remarkable shine and reflection that metal fenders can't match... Combined with the unmatched advantages of Minimizer Fenders: NO PAINTING, NO FADING, NO RUST AND NO CRACKS. Minimizer Mirror Finish and Smoky Black Mirror Finish poly fenders are now available via the Minimizer Worldwide Distribution Network.

UNIQUE OPTIONS

ON THE TRUCK

MIRROR FINISH **DECORATED BRACKETS**

Minimizer offers multiple decorated bracket arm finishes. Each option provides the same high level of performance and durability as our standard black poly bracket arms. Just another innovation in unique aftermarket products.

LIQUID PLATINUM

ON THE TRUCK

AN INDUSTRY **BREAKTHROUGH**

Tired of fenders denting, cracking, or rusting, but crave the beautiful shine of metal fenders? Liquid Platinum finished fenders are for you. These fenders are made from a TPO material that's laminated with the same Class A finish film widely used in the automotive industry. Fenders shine up with soap and water with NO buffing... ever. Liquid Platinum is currently available in most fender models.

UNIQUE OPTIONS

ON THE TRUCK

LIQUID PLATINUM **DECORATED BRACKETS**

Minimizer offers multiple decorated bracket arm finishes. Each option provides the same high level of performance and durability as our standard black poly bracket arms. Just another innovation in unique aftermarket products.

PAINTABLE

ON THE TRUCK

Minimizer TPO is a material engineered to be painted. Your body shop specialist will be able to match just about any color. So get creative and go for that truly custom look. The shine and finish will rival fiberglass or metal... but our fender's legendary durability stands alone.

DIAMOND **PLATE**

ON THE TRUCK

Minimizer fenders that look like diamond plate... but last like our incredible fenders. Tired of fenders denting, cracking or rusting, but like the look of diamond plate? Diamond plate poly is available for most of our fender styles... a timeless great look, but with the durability of “never-dent” poly.

ON THE TRUCK

FENDER BRACKET SYSTEMS:

INSTALLATION **KITS**

ON THE TRUCK

MINIMIZER™ OFFERS THE BEST FENDER BRACKET SYSTEMS IN THE INDUSTRY.
HERE'S WHY: ULTIMATE DURABILITY

- Won't stay bent • Made from 100% composite material
- Won't stress crack • Never needs paint • Softens road vibration

MINIMIZER™ BRACKETS AND FENDERS WORK TOGETHER
TO ABSORB IMPACT.
IF THEY BEND, THEY SPRING BACK!

RACKET SYSTEMS

The competition gives you metal brackets with composite fenders.
WHY? We do it right, you get a nearly indestructible bracket with your Minimizer™ fender!

You've got to have the right tools for the trade, right? You know that already, you bought Minimizer™ fenders! What would nearly indestructible fenders be without the industry's toughest brackets to match?

You need brackets that won't bend out of shape with the slightest tap or break and do nothing but cost you hard earned money. At Minimizer™ our fenders AND brackets are Guaranteed for Life! That's good math for you! How can Minimizer™ make such an offer? It's simple, we have total confidence in the design and performance of our fenders and bracket kits.

Minimizer™ brackets are designed for strength - they won't stress crack, never need painting and they soften road vibration. Minimizer™ brackets have remarkable staying power - when bumped or bent they "give" slightly and spring back into shape without dents or paint chips. These brackets will last as long as you own your Minimizer™ fenders - we guarantee it!

Use the best fender bracket system available. Offered exclusively from Minimizer™ distributors worldwide.

MINIMIZER™ POLY BRACKET SYSTEMS ARE
GUARANTEED FOR LIFE!
OFFERED EXCLUSIVELY FROM MINIMIZER™ DISTRIBUTORS WORLDWIDE.

SLEEK NEW **LOOK:** SAME **DURABILITY**

MINIMIZER™ BRACKETS AND FENDERS WORK TOGETHER
TO ABSORB IMPACT.
IF THEY BEND, THEY SPRING BACK!

RACKET SYSTEMS

- EASIER INSTALLATION • REDUCES SUSPENSION BULK • SMOOTHER LOOK
- WON'T STAY BENT • MADE FROM 100% COMPOSITE MATERIAL
- WON'T STRESS CRACK • NEVER NEEDS PAINT • SOFTENS ROAD VIBRATION

ON THE TRUCK

The **NEW** Minimzer™ Paddle Bracket kits are designed for direct mounting to the frame eliminating the need to use spacers in most cases. The more compact profile allows the bracket arm to fit lower on the frame rail if needed, allowing more clearance between the frame and the fifth wheel plate. All of the fastening hardware is hidden beneath the fender creating a more streamlined and aesthetically pleasing look. Don't let it's good looks fool you, it has been Tested and Tortured to ensure that it will meet the demands of a tough industry and the daily abuse of the road.

- Plastic Angle/Height Support
- Mounting Flanges, Mounting Bolts, and Spacers
- All Bolts, Washers, and Nuts

LIFT AXLES **BRACKETS**

ON THE TRUCK

- Designed specifically for 5" round lift axles.
- Easy bolt-on design for a quick installation.
- Available for single wheel applications.
- Fenders are also available.
- Fenders are molded for a specific tire size.
- Please reference Part# BSHORTLIFTAX
- Bracket Kit clamps on to a 5" round axle allowing the fender to raise and lower with the axle.

STEERABLE AXLES **BRACKETS**

ON THE TRUCK

- Designed specifically for steerable axles.
- Easy bolt-on design for a quick installation.
- Over 20 different kits are available depending on the style and brand of your axle.
- Fenders are also available.
- Call for part numbers and availability.
- Steerable kits are made to bolt on using existing holes on the brake assembly allowing the fender to raise, lower and steer with the wheel.

TOOL BOXES

ON THE TRUCK

MINIMIZER™ TOOL BOXES ARE VIRTUALLY INDESTRUCTIBLE! PLUS, THEY DON'T LEAK, SWEAT OR RUST AND THEY MAKE A GREAT TOOL SAVER.

Truck & Trailer tool boxes - like our fenders – are tough enough for the most demanding work sites and weather. Made of solid molded plastic material our tool box will never rust, crack or need paint. Don't let the scale fool you – these boxes are no lightweights. They're tougher than metal boxes weighing 10 times more: and the $\frac{3}{4}$ " gutter and Seal Tight™ weather stripping means poly-tool boxes are nearly weather-proof.

Our tool boxes mount easily to most trucks in minutes. Heavy-duty hardware keeps the plastic truck tool box as secure as a safe.

The "Vector T Latch" is number one in durability. It comes with a (standard) built in cylinder lock and two keys.

"Super Springs" provide for a self-lifting door on the chest style boxes.

With a $\frac{3}{4}$ " gutter and "Seal Tight" weather stripping – weather-tight.

The heavy-duty universal mounting brackets keep your tool box secure.

TOOL BOXES

"My last metal tool box weighed about 200 lbs and ended up rusting shut!"

Poly Chest Box:

Two standard sizes:

T36CHMIN - 20" x 19" x 36" 30 lbs.

T24CHMIN - 20" x 19" x 24" 27 lbs.

Poly Underbody Box

Three standard sizes:

T36UBMIN - 20" x 19" x 36" 30 lbs.

T24UBMIN - 20" x 19" x 24" 27 lbs.

T18UBMIN - 18" x 18" x 24" 23 lbs.

Bracket Kits:

PTBKTMIN - (250lbs. max)

DAILY BY TRUCKERS FOR TRUCKERS

MINIMIZER SLICK PLATE

"I got a couple teenage boys at home that are pretty happy about not having to clean off my fifth wheel plate anymore!"

MINIMIZER INTRODUCES THE TRAILER SLICK PLATE!

ON THE TRUCK

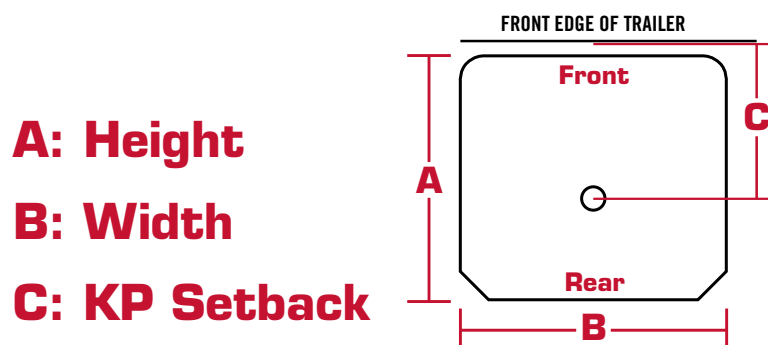

The Minimizer Trailer Slick Plates promote a cleaner environment by removing the need for greasing the trailer coupler plate and is a good alternative when you cannot use the Minimizer 5TH Wheel Slick Plate*.

- Reduces wear on 5th wheels & Upper Coupler.
- Eliminates the need to grease.
- Installs on existing and new trailers.
- Increases steer tire life.
- Easier trailer handling for drivers.
- A strong, self-lubricating solid polymer plate.
- Designed for frequent hook and drop applications.
- Available in many different sizes and can also be ordered in predrilled custom sizes.

***Warning:** DO NOT use a Minimizer 5th Wheel Slick Plate, Trailer Slick Plate, Slick Disk, or a Mfg Low Lube 5th Wheel Topplate in conjunction with one another. Doing so could cause a coupling failure. DO NOT INSTALL the Trailer Slick Plate if it extends past the front edge of the trailer or the upper bolster plate.

NOT SURE WHICH STYLE WILL FIT?

Use the height, width, and king pin setback dimensions to help!

KP Setback = Measurement from the front edge of the trailer to the center of the king pin.

**CALL 1-800-248-3855 OR VISIT WWW.MINIMIZER.COM TO LEARN MORE ABOUT
CURRENT AVAILABLE TRAILER SLICK PLATE MODELS AND FUTURE RELEASES!**

CUSTOM MUD **FLAPS**

CU

ON THE TRUCK

CUSTOM MUD **FLAPS**

- Put your logo, telephone number or web site on display while protecting your rig and other drivers. (Most trucks average 10 million sightings per year per truck.)
- 1/4", 3/8" and 1/2" Poly or Rubber materials stay strong without curling on your trucks and trailers.
- Minimizer offers an entire standard letter character set in 2", 3", and 4" heights.
- Don't have a great company logo or the budget for custom plates? Choose from our stock art images to give your mud flaps that little extra.
- We offer a wide variety of heat stamp foil colors in an effort to match your company logo as closely as possible.
- These truck mud flaps will last for years without fading or tearing.

STOM MUD FLAPS

"I am just an owner operator so I don't have a big advertising budget, but I figure these mud flaps are like handing out 50 business cards a day."

ON THE TRUCK

GRAPHIC SERVICES

We have complete graphic services available for your design, typesetting or proofing needs. Custom plate requests will require high resolution artwork, preferably in vector format. If high resolution or vector artwork is not available, additional art charges may apply.

FAST **FLAPS**

ON THE TRUCK

FAST **FLAPS**

The Minimizer Fast Flap is a releasable mud flap hanger bracket that allows your mud flap to release free without causing damage to the flap - hanger bracket - or equipment! Reinstalling the mud flap only takes seconds using a standard screwdriver. Each set includes 4 brackets, 8 pieces of reflective conspicuity tape, and all necessary mounting hardware.

Fast Flaps secure mud flaps without creating any holes in the flap or sacrificing strength. It takes more than 500 pounds of pressure to detach a mud flap from the Fast Flaps stainless heat tempered spring steel bar, and the result doesn't damage the flap.

Part# 101227

TO SEE THE PRODUCT IN ACTION, VISIT WWW.MINIMIZER.COM AND CLICK ON 'FAST FLAPS.'

FAST FLAPS

"I can't even tell you how many mud flaps my drivers have ripped off and ruined over the years, this product is a godsend."

ON THE TRUCK

DURABLE - All stainless steel, heat tempered to spring steel.

SECURE - Mud flap fastened in with spring steel clamping force.

SAVE MONEY - No damage, no shop labor, no down time and no DOT fines!

PROVEN PRODUCT - Thousands in use on owner operator's, fleet's, municipal and DOT Equipment throughout North America.

INDUSTRY APPLICATIONS - For both on-road and off-road trucking including dump trucks, cement mixers, asphalt, block, logging, roll-off, and garbage trucks. Also great for freight haulers that often experience mud flap damage.

BACKED BY MINIMIZER'S LIFETIME WARRANTY

LIGHT PANELS

ON THE TRUCK

LIGHT PANELS

Minimizer's **NEW** Rear Center Light Panels are one of the easiest and most affordable ways to customize your ride! Our Rear Center Light Panels are made from the same polymers that make Minimizer Poly Fenders nearly indestructible. Which means they will never fade, never rust, never stress crack, and never need to be polished.

Offered in as many material and finish options as our Poly Fender line. The Rear Center Light Panel mounts to the rear of your truck frame and holds a total of 8 lights (4 - 6" x 2" angled oval encasements & 4 - 2" round encasements). The Open Cavity Light Panel features a decorative mounting plate that can feature your company logo (sold separately).

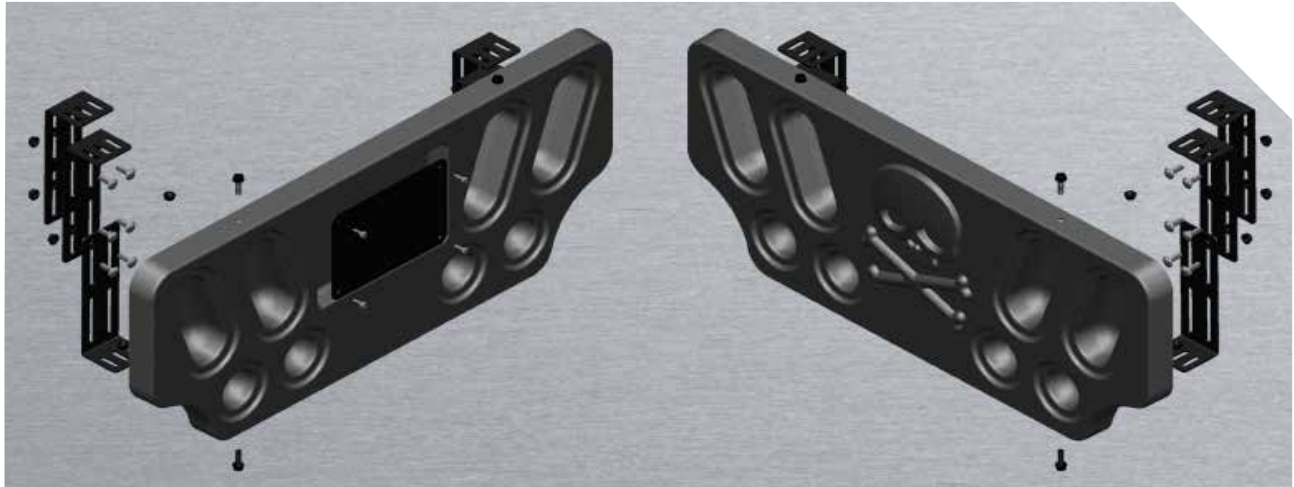

Installation is easy using the Minimizer Rear Center Light Panel Bracket System (Part# 100964).

For more information on Minimizer Rear Center Light Panels visit www.minimizer.com!

All Minimizer Rear Center Light Panels are TESTED & TORTURED, and carry the Minimizer LIFETIME GUARANTEE!

LIGHT PANELS

"Metal light panels have the same problems as metal fenders. I will never worry about rust or stress cracking with my new Minimizer Light Panel."

LED LIGHTS

ON THE TRUCK

4" ROUND LED CONSISTS OF STOP, TURN & TAIL LIGHTS

Our 12 diode LED lights are brighter and therefore safer than any incandescent light on the market. No more "burned out" tail lights... if one of the 12 diodes should ever fail, 11 are still on the job. This standard 4" model is made to perfectly fit the openings of our fender light box option.

Included with your LED light purchase is our black poly mounting grommet. It fits perfectly into our fender openings and the seal around your light keeps weather out.

Kit also includes 6 chrome bezel trim pieces. (As shown in picture)

CUSTOM MOLDED **FLOOR MATS**

IN THE TRUCK

MINIMIZER™ CUSTOM MOLDED FLOOR MATS HAVE ARRIVED!

Whether it is the mud and snow off your boots, your morning coffee or your Big Gulp, the latest innovation from Minimizer is designed to protect the floor of your truck for years to come.

The engineers at Minimizer use cutting edge technology to scan the interior measurements and angles of each specific make and model semi cab to ensure an exact fit. A retention hook mounted to the base of the stick shift is designed to keep your floor mat in place. Protect your investment and reduce in cab corrosion.

CALL 1-800-248-3855 OR VISIT WWW.MINIMIZER.COM TO LEARN MORE ABOUT CURRENT AVAILABLE FLOOR MAT MODELS AND FUTURE RELEASES!

FLOOR MATS

"I already have a few sets, but I will be putting these floor mats in every truck I own."

IN THE TRUCK

Our tray system was designed to be removed easily for quick cleaning. In a matter of seconds you can have your Minimizer Floor Mats looking new and reinstalled so you can get your truck back on the road.

The textured surface will ensure your boots always get a solid grip. They will not break or crack under extreme conditions and are backed by a Lifetime Manufacturers Warranty.

Made out of a proprietary thermoplastic, Minimizer Floor Mats are designed to hold up to the daily abuse of the heavy duty trucking industry.

Minimizer

FIX THE TRUCK

THE MINIMIZER ADVANTAGE:

FIX THE TRUCK

FIX THE TRUCK

Minimizer cares about the trucking industry as a whole. So much so, that we took a look at other areas in which we could help improve the day to day duties of the repair professionals who have to **FIX THE TRUCK**. Lets face it “Stuff Happens” and a truck that is broke down sitting in a shop is not making money!

In the past, most of our focus has been on protecting the truck and the load without much attention being paid to the the guys who keep our power units and trailers; serviced and running properly. Then the Minimizer Maintenance Line was born... The **NEW** Tool Caddies and Work Benches put tools right where you want ‘em. Not just laying on a tire or on the other side of the shop in a tool box. Our engineers designed benches that can sit right on the truck within arms reach!

Our Work Benches and Tool Caddies are made from the same polymers that make our fenders nearly indestructible. All Minimizer Work Benches are **TESTED AND TORTURED**, and carry the Minimizer Lifetime Guarantee!

The Minimizer Tire Mask is another example of an inexpensive tool that can greatly improve efficiency even on the most tedious of tasks. Painting! Reduce masking and cleanup time by up to 90% with another great product from the Minimizer Maintenance Line.

BOTTOM LINE:

HAPPIER REPAIR PROFESSIONALS DOING THINGS EASIER.

SINGLE TIRE **WORK BENCH**

FIX THE TRUCK

THE SINGLE TIRE WORK BENCH sits directly on top of single tires making all your tools readily accessible while working on your truck. With almost 2 sq ft of surface area, the Single Tire Work Bench has enough space to keep everything you need to finish the job within arms reach.

ANOTHER GREAT PRODUCT FROM THE MINIMIZER™ MAINTENANCE LINE!

The Single Tire Work Bench also works on flat surfaces and can be inverted to be used as a carrying bin. Like all the products in the Minimizer Maintenance Line, the Single Tire Work Bench has been thoroughly **TESTED & TORTURED** and comes with a **LIFETIME GUARANTEE!**

Part #: **100041**

Dimensions: **15" W x 18.5" L x 6" H**

Bench Weight: **3.5 lbs**

Surface Area: **1.9 sq ft**

Storage Area: **.7 cu ft**

DUAL TIRE **WORK BENCH**

FIX THE TRUCK

THE DUAL TIRE WORK BENCH sits directly on top of dual tires making all your tools readily accessible while working on your truck. With almost 4.5 sq ft of surface area, the Dual Tire Work Bench has enough space to keep everything you need to finish the job within arms reach.

ANOTHER GREAT PRODUCT FROM THE MINIMIZER MAINTENANCE LINE!

The Dual Tire Work Bench also works on flat surfaces and can be inverted to be used as a carrying bin. Like all the products in the Minimizer Maintenance Line, the Dual Tire Work Bench has been thoroughly TESTED & TORTURED and comes with a LIFETIME GUARANTEE!

Part #: **100412**

Dimensions: **28" W x 23" L x 6" H**

Bench Weight: **5.2 lbs**

Surface Area: **4.5 sq ft**

Storage Area: **1.5 cu ft**

TANDEM **WORK BENCH**

FIX THE TRUCK

THE TANDEM WORK BENCH is designed to sit securely on tandems, and can hold up to 300 lbs.

SO GO AHEAD... PUT 'EM TO WORK!

The Tandem Work Bench has a spacious waterproof interior compartment below two removable top trays and is made from durable polymers. It is TESTED and TORTURED; and comes with a LIFETIME GUARANTEE!

Part #: **100102**

Dimensions: **23.5" W x 54" L x 7.5" H**

Bench Weight: **22 lbs**

Surface Area: **8.8 sq ft**

Storage Area: **3 cu ft**

TOOL CADDIES

FIX THE TRUCK

Minimizer's NEW Standard, Super Single, and Flatbed Tool Caddies put tools right where you want 'em. With 3 unique options, the Tool Caddies are designed to attach directly to either the tire or the flatbed and can hold up to 100lbs of tools and gear. The Tool Caddy is perfect for in the shop or roadside repairs.

THE NEWEST ADDITIONS TO THE MINIMIZER MAINTENANCE LINE!

Minimizer Tool Caddies are made from the same polymers that make our fenders nearly indestructible. Like all the products in the Minimizer Maintenance Line, the Tool Caddies have been thoroughly TESTED & TORTURED and come with a LIFETIME GUARANTEE!

TOOL CADDIES

"I know one thing for sure... my guys are spending a lot less time searching for the tools they were just using!"

FIX THE TRUCK

RE MASK SYSTEM

FIX THE TRUCK

MINIMIZER INTRODUCES A REVOLUTIONARY PRODUCT THAT TRANSFORMS THE LOOK OF WHEELS IN A FEW SIMPLE STEPS:

Minimizing maintenance costs are essential for any fleet operator and no task can be more tedious and more time consuming than painting rims. The new patented Minimizer Tire Mask System can significantly reduce fleet operating costs by reducing masking and cleanup time by up to 90%. Now, even the oldest rims can look brand new.

The Tire Mask kit is designed to protect tires from primer and paint over-spray when painting your rims but eliminates the need to fully tape and mask your entire wheel. Its patented technology is specifically designed for different sizes of tires. Kits come with a Tire Mask, which is available in 5 different sizes and once taped to the tire protects from paint and primer over spray. The Minimizer Tire Mask System also offers a patented Hubb Capp protector and a Rim Shield to ensure a precise painted finish without any of the cleanup and in a fraction of the time. All the pieces of the Minimizer Tire Mask kit can be reused for multiple applications.

TIRE MASKS ARE AVAILABLE FOR 16", 17.5", 19.5", 22.5", AND 24.5" WHEELS

RESOURCES

OUR FAMILY'S WARRANTY

RESOURCES

BEFORE THE LEGAL GUYS HAVE THEIR SAY, HERE'S THE DEAL:

We're all only human and we know that sometimes, "stuff" happens. With our extensive background in plastic materials and the trucking industry, we also fully understand the physical properties of the materials we use and we know that our plastic doesn't just "break" or "crack" under normal use, unless the unforeseeable happens. If so – we have probably done it ourselves, or have tested our material to the utmost extremes and have seen it before. Be sure to check out our videos at www.minimizer.com or www.youtube.com or ask a Minimizer sales representative for one to see how brutally we test our products.

We've engineered our fenders & brackets to last longer than the life of your truck. We're a family company, we so we truly do care about the products we produce on a daily basis.

We have an inherent respect for you, our customer, who makes their living using the vehicles and equipment our products serve to protect. So don't tell us you were "driving along" when your bracket broke or it bent back and your wheel is now rubbing the fender. We are drivers and were founded by a driver, so we've been around the block a few times. If you dumped your truck into a monster pothole, dropped a trailer, got hit by a reckless vehicle operator or backed over your flap and pulled the fenders off we sympathize with you and will try to help you out, as we've done or seen all those things. We want you to keep running our products on all your trucks, so in the unlucky event of stuff happening, please refer to our Stuff Happens (SH) policy below.

SH POLICY

In the event customers have a misfortune with our product we will work with them to either offer to replace the part in question or sell replacement parts at a significant discount to our customers who forget that our products are not at all times "invincible". We extend this to original owners only. If you bought our product at an authorized Minimizer dealer, please see them for details. We will require a digital photo of the damage or the original part back. We promise to make it right for you. We do not want an "accident" to leave a bad taste in your mouth regarding Minimizer Products. Always remember we have been in the trucking industry for 30 years and have seen it all. Nothing is unexpected with us.

Tell us your story as we love to hear what our fenders go through on a day to day basis. If it's a good story we will even brag about it on our website.

***FOR FULL LAWYERS WARRANTY AND SPECIFIC PRODUCT WARRANTY INFORMATION PLEASE VISIT WWW.MINIMIZER.COM**

FAMILY'S WARRANTY

MEET THE **FAMILY - FOUR GENERATIONS**

"Our pride is your assurance that you will get only our very best with every order."

- The Kruckeberg Family

A family operation is a special operation. We know quality products and commitment to our customers is the foundation for our future. We know our reputation as a family run company ships right along with every product we produce.

When your name and your children's, grandchildren's and great grandchildren's future are shipping with your products, you get it right every time. We are proud of the innovations of our Poly Fenders and Brackets, Floor Mats, Tool Boxes, Mud Flaps, Work Benches, Light Panels, Slick Plates and Slick Disk.

We are proud of the people who make them. We are proud to be a family run business in the USA.

FAST SHIPPING ON REPLACEMENT PARTS

Hey, Minimizer products are tough... made to take a beating. But on the rare occasion that you need a replacement part -- a bracket, a bolt, an individual fender... whatever -- it's our job to make sure you get it fast. We keep a complete inventory of the parts you need. So if you happen to need a replacement part for any of our products, call direct and we'll get it shipped from our dock as fast as we can.

RETURN POLICY

Spray Control Systems, Inc. wants you to be happy with any purchase that you make from us; therefore we offer only high quality merchandise that we feel is superior in materials and craftsmanship. If you are unhappy with your purchase feel free to contact us and we will be happy to make it right.

We'd like to help you resolve a purchase problem as quickly and easily as possible provided you meet the terms and conditions listed below. Please note that NOT ALL items are covered by our RMA Policy. You may return your purchased products within 15 days of the invoice date. After 15 days, no merchandise can be returned unless defective or within the terms of the manufactures warranty. Anything returned without an RMA number on the outside of the package will be refused and sent back to the company.

MERCHANDISE RETURN POLICY

1. All merchandise returned will be subject to a 20% restocking charge. All sales are subject to approval before return. Our knowledge of your intent to return the merchandise will insure that you receive proper credit.

2. Please provide the following information when calling or e-mailing for an RMA number: Customer Name, Contact Name, Zip Code (Billing), Sales Order Number, SCSi Part# and Quantity, along with the nature of the problem.

3. New merchandise will be accepted for credit only with prior approval by an SCSi Product Specialist. Your Product Specialist will issue a RETURNED MATERIAL AUTHORIZATION (RMA) number which must appear on all returned cartons and corresponding packing list's). Merchandise must be received within 30 days of issuance of the RMA number otherwise, credit will not be issued. No merchandise can be returned after 15 days unless defective or within the terms of the manufactures warranty.

Please Note: No returns will be accepted if the manufacturer's RMA# sheet is missing or is not visible on any and all packages being returned.

4. All purchased merchandise must be returned in "BRAND NEW" condition, if materials are returned in a "Less Than Brand New" condition You will be notified by an SCSi representative. A refurbishing fee may be required to restore the merchandise to a marketable condition. The fee for refurbishing will be presented to you to accept or reject, at which time the merchandise will either be reworked or returned to you. This fee is in addition to any restocking or handling fee of at least 10% which may be levied. Credit for returned merchandise will be issued at the original purchase price minus any fees listed above. Only merchandise purchased within the past fifteen (15) days may be returned. Special order merchandise can not be returned at any time.

5. If the returned packages are missing any of the manufacturers supplied accessories or there is obvious damage or visible wear and tear to the merchandise, Spray Control Systems, Inc. reserves the right to refuse the return.

6. If you are trying to return/exchange an item that you've tried to install and the item has become damaged so that it is no longer in "BRAND NEW" condition, we will not be able to accept a return/exchange on that item. We can only allow returns/exchanges for new and unused parts that have not been installed and/or damaged.

7. All products are sold with their respective manufacturer's warranties. Please note that warranty periods and services vary depending on the product.

8. The purchaser will be responsible for return shipping costs. When returning products, we strongly recommend the use of a carrier that can track packages. Spray Control Systems, Inc. does not reimburse any customers return shipping cost. Claims for delay, loss, or damage should be made against the freight carrier.

9. Spray Control Systems, Inc. will not accept any returns shipped freight COD or UPS COD. If you ship items to us, please insure the items to their full value and request proof of delivery. Items must be in a reasonable return package, to insure they are returned in a "BRAND NEW" condition. If not, damage may occur in the shipping process, which SCSi will not be held responsible, and may cause the product to be returned in a "NOT LIKE BRAND NEW" condition.

10. Returned goods privileges will apply only to customers currently purchasing Minimizer™ Products and whose accounts are in current condition. No cash settlement will be made, if you are inquiring about RMA # for merchandise that was purchased through one of Spray Control Systems, Inc. qualified dealers, and not directly from SCSi, please contact your point of purchase retailer, and notify them. They will be responsible for the return of merchandise.

11. The customer shall not deduct amounts for returned merchandise from payments to Spray Control Systems, Inc. When approved returned merchandise has been received, inspected, and processed, Spray Control Systems, Inc. will promptly issue credit to the customer account or Customers Credit Card. No deduction shall be made until the credit memo has been issued.

12. Customers returning merchandise which is not approved for credit or replacement will be notified in writing by a Spray Control Systems, Inc. Representative. Failure by the customer to respond within ten (10) days to such notice will be just cause for Spray Control Systems, Inc. to scrap or return the merchandise, freight collect, back to the customer.

13. Customers needing additional assistance regarding the Merchandise Return Policy should contact Spray Control Systems, Inc. and ask to speak to a representative.

REQUESTING AN RMA#

You may choose to use our RMA form for requesting a product return online through our web site's RMA form:

Request RMA

Anything returned without an RMA number on the outside of the package will be refused and sent back to the company.

After receiving your RMA Number, place your RMA# sheet in a clear visible spot and write your RMA number legibly on the return label and the outside of the box and return the entire package to:

Spray Control Systems, Inc.
