# ALUMINUM SERVICE BODIES

# ALUMINUM SERVICE BODIES

Aluminum service bodies from Knapheide feature a superior design and innovative construction.

Utilizing military-grade aluminum and structural adhesives are just a few of the features that place our aluminum service bodies far ahead of the competition.

In order to provide customers with the utmost confidence in our aluminum service bodies, we put them through the most rigorous testing program in history. They were subjected to the harshest environments and applications possible in our lab, on proving grounds — and by real customers like you.

Choose a Knapheide Aluminum Service Body and you'll get corrosion resistance, increased payload, and an aluminum service bed that is just as durable as steel.

A698  
\*Body may be shown  
with optional features

## STANDARD SHELVING

All Knapheide Service Bodies come with the following standard shelving units:

- Two adjustable divider shelves and dividers, in the street and curb side front vertical compartments (1st and 2nd vertical 132" bodies only)
- One adjustable divider shelf and dividers in the street and curb side full height rear vertical compartments
- One adjustable divider shelf and dividers in the curb side horizontal compartment

# STANDARD FEATURES

**A** Constructed of 6061 T6 and 5052 aluminum

**H** Adjustable security ring strikers provide a weather-tight seal

**B** Aerospace design and assembly for unmatched durability

**I** Upgraded surface mount lighting system features LED S/T/T and B/U, LED strobe option\* with (8) selectable patterns, and built-in reflectivity for additional safety\*\*

*\*Additional wire harness required for strobe lights*

*\*\*Lights covered by 3-year limited warranty*

**C** All-aluminum 6061 T6 understructure

**J** Automotive-quality rotary latches with easy open handle and interior cover

**D** Floor constructed of rugged 6061 T6 aluminum extrusions and exclusive "Return Flange" floor design

**K** Nitrogen strut door retainers

**E** Inset door frame design with double tray aluminum doors and neoprene seals for weather-tight closing

**L** Includes slam-lock tailgate with one-hand center release

**F** TPO fender skirts

**M** Quick-mount installation allows for fast, safe mounting

**G** Continuous aluminum hinge with stainless steel rods

**N** Interior light guards protect recessed lighting and wiring

# COMPARTMENT CONFIGURATIONS

## // 500 SERIES COMPARTMENTS

The 500 Series Service Bodies feature a horizontal compartment that stretches from the first vertical compartment to the end of the body with a small, rear lower compartment.

## // 600 SERIES COMPARTMENTS

The 600 Series Service Bodies feature a horizontal compartment that is positioned over the wheel well and one vertical compartment in the front of the body and one at the rear of the body.

## // 700 SERIES COMPARTMENTS

The 700 Series has 500 Series configuration on the curb side and 600 Series on the street side.

## // LOW PROFILE BODY

Low Profile Bodies, denoted by “LP”, offer greater visibility from the cab while only sacrificing 4” of the body height compared to a standard Service Body.

## // RAISED FRONT COMPARTMENTS

Raised front vertical compartment configuration raises the curb side front vertical compartment to 60” tall.

## // **FLIP TOP** **COMPARTMENTS**

Flip Tops, denoted by “F”, allow for greater internal storage, organization and flexibility. Knapheide Flip Tops have a slammable top lid door and a convenient one-hand release located in the rear compartment.

## // **PLUS 50** **COMPARTMENTS**

Plus 50 models feature a transverse compartment in the curb side front vertical extending to the street side compartment back. Plus 50 models have 50% more effective storage capacity.

Depending on body model, compartments have either two or three drawers, 59” or 69” long. All drawers are rated for 250-lb. and have dividers every 4”.

### **TWO OR THREE-DRAWER UNIT**

# POPULAR OPTIONS

**FRONT STROBE**

**LED COMPARTMENT LIGHTS**

**GRAB HANDLES**

**CABLE STEPS**

**MASTER LOCKS**

**POWER LOCKS**

**ALUMINUM DRAWERS**

**SORTIMO COMPARTMENT STORAGE/MOBILITY**

**MODULAR CAB GUARD**

5500	Crew	197.4"	18,000/19,500 lb.

## COMMITMENT TO CORROSION RESISTANCE

Aluminum bodies are naturally corrosion resistant. Where steel fasteners are used, those fasteners are coated with “EcoGuard” to eliminate the interaction between the steel and aluminum.

This aluminum assembly method both allows us to create products with the highest level of corrosion resistance available.

# NEVER SETTLE

If you are going to be a leader, it takes more than building a high-quality product. It means never being totally satisfied with that product, no matter how high quality it may be. It requires constant vigilance and a willingness to take a chance on something new. And it means exceeding expectations every time. As the industry changes, one thing never will—our commitment to making customers like you as productive and efficient as possible. We know you don't settle, and we don't either. That's why we want you never to settle for anything less than Knapheide on the back of your truck.

**Knapheide. Never settle.**
